CHAMPLAIN VALLEY
DISPENSARY

Welcome to Champlain Valley Dispensary & Southern Vermont Wellness

We're dedicated to providing high quality, laboratory-tested medical cannabis to our patients. Our knowledgeable staff provide a safe, non-judgmental environment for patients to learn about symptom relief and pain management through cannabis treatments and alternative health practices.

Individual responses to cannabis strains and methods of consumption vary. Currently, no scientific consensus exists that indicates any one cannabis strain is more effective than another for relieving specific symptoms or conditions. Each consumer must determine, through their own use of cannabis, which strains and products are most effective for their needs. Ask about our Patient Profile Project to learn more! CVD/SVW now has four dispensaries open in addition to offering home delivery, providing the best accessibility in the state. Our current inventory, complete with photos and ingredients, can be viewed on our website's Products page at cvdvt.org and at svwt.org.
